NOTIFICATION

Sub: 4th Year Honours Programme during the Academic Year 2025–26 for Undergraduates with 3-Year Bachelor's Degree – reg.

The University is pleased to announce the introduction of the **4th Year Honours Programme** starting from the **Academic Year 2025–26**, in line with the guidelines of the National Education Policy (NEP) 2020. This opportunity is extended to students who have successfully completed a 3-year undergraduate Bachelor's degree and wish to pursue an **Honours degree** by completing two additional semesters (4th year). The applicants will be admitted provisionally to the programme, subject to the ratification by the Board of Studies of the respective departments and the Academic Council.

The University will offer the 4th year Honours programme in the following disciplines

- Psychology
- Chemistry
- Physics
- Computer science

The students will be admitted based on the following eligibility:

- Applicants must have completed a **3-year undergraduate degree** from a recognized institution.
- Applicants who have pursued a Two Major Programme during their 3-year degree are
 eligible. However, such students must choose one of the two majors as their area of
 specialization for the Honours degree. Such applicants should have at least 40% of the
 total credits in the 3-year Bachelors programme in the major subject they intend to
 pursue in the 4th year

Details regarding the **application form**, **fee structure**, and **submission guidelines** will be made available on the **official University website** in the **first week of May 2025**.
