Sub: Foundation Course Registration for I Semester Undergraduate Students

All undergraduate students of the I Semester are required to register for and complete a 30-hour, 2-credit foundation course in **Environmental Studies**. Students who have **Environmental Science** as one of their optional subjects must instead register for an alternative foundation course in **Intellectual Property Rights**, which carries the same number of credits and hours.

A document outlining the registration procedure and instructions on accessing the online course content is circulated along with this notice. **Please note that completion of this course is mandatory.** There will be a **mid-semester test** and an **end-semester examination** as part of the course requirements.

The content for the **Environmental Studies** foundation course will be available online 24 hours after registration on the student portal under "*My Courses*" with the subject name **FC ES Environmental Studies**.

For any clarifications regarding the content, please contact:

Dr. Paramesha M

Department of Botany

Email: paramesham@sju.edu.in

The content for the **Intellectual Property Rights** foundation course will be available under "*My Courses*" with the subject name **FC IPR Intellectual Property Rights**.

For any clarifications regarding the content, please contact:

Ms. Raj Kiran C A

Department of Commerce

Email: raj.kiran@sju.edu.in

Registration for the above-mentioned foundation courses is open with immediate effect. All I Semester students (except those enrolled in the B.Voc. program) are expected to complete the registration process without delay and engage with the course content regularly. All modules must be completed well before the end-semester examination.
