L 2 Hindi (Communicative Hindi)

This course is based on the integration of learning outcomes across Interpersonal, Interpretive, and Presentational Modes of Communication. Students accomplish real-world communicative tasks in culturally appropriate ways through Standard Hindi and through colloquialisms as they gain familiarity with products, practices, and perspectives of the Indian culture(s). Students learn grammar, vocabulary, and structures to enable them to meet functional performance goals at this level and to build a foundation for continued language learning. During this course, students generally perform in the Novice range, although in the case of the Hindi Heritage Learners (HHLs), a few abilities may emerge in the Intermediate range especially in the aural skills.
