### **Course Description:**

This course offers an overview of the stylistic, aesthetic, and narrative tools utilized in filmmaking in an attempt to understand cinema. You will learn the creative concepts that go into filmmaking, actively engage with concepts, and construct your own unique perspective about film through lectures, discussions, and analyses.

### **Course Specific Outcomes**

By the end of the course every student must be able to

1. Demonstrate good knowledge on various aspects of film making
2. Demonstrate a deeper understanding of film language and grammar
3. Analyze and critique movies based on elements of cinema
