

Food, Technology and Sustainability in Industries

On 26th March 2023, a webinar was organised by CRISYS on Food, Technology and Sustainability in Industries. The speaker for the day was Mr Arman Suel Laskar, Associate KPMG India, and former student of St Joseph's College, Bangalore, the batch of 2015 to 2018. Around 25 students participated in the webinar.

The session began with a Welcome Speech by Mr Daniel Thomas, a member of CRYSIS and Master of Ceremonies for the day and a brief introduction to CRYSIS. Followed this, there was an introduction to Mr Arman Laskar by Mr Teerth, Economics Collective Head, CRYSIS, and Dr M Jayashankar, Coordinator of CRISYS and Head, Department of Zoology, St Joseph's University. After this was Mr Arman Laskar's session.

The session focused on:

1. Food Irradiation, its importance and applications.
2. Career Opportunities in the Food and Agricultural Sector
3. Advice for students

After the session, a Q&A period was held in which participants cleared their doubts and enquired about other topics related to the field. The Q&A session was followed by a concluding speech by Dr Jayashankar and a vote of thanks given by Akila Karani, collective head of Biotechnology CRISYS. Overall, the session was interactive and received positive feedback from the participants.
