

## Hackathon

The chief guest initiated the talk by emphasizing the importance of Recycle, Reuse, and Reduce. The honourable speaker then discussed Plastic circularity, highlighting the benefits of Durability and Versatility. Various facts about plastic consumption, usage variance, and conversion percentages were presented with pictorial graphs for clarity.

The discussion then shifted to the usability and necessity of Mineral water in different nations, supported by relevant statistics and graphs. Ms. Kanika Mayar, the Knowledge partner of Vertex ventures and speaker of Hackathon, addressed investing in sustainability and venture capital, emphasizing the need for a global intervention for promoting sustainable growth.

The session also covered sustainable consumption driving new consumer models, emphasizing the importance of a sustainable supply chain for the future. Ms. Mayar provided examples of companies like Beep kart and Cashify, highlighting their working models and strategies, including their commitment to climate change goals. Overall, the seminar addressed a range of topics related to sustainability and the role of businesses in promoting environmentally friendly practices.
