

Waste Disposal Awareness Program

On 17 October 2023, the MSW-HR Forum orchestrated a compelling waste disposal awareness program at St Joseph University, wherein second-year students from both the undergraduate and postgraduate domains actively participated. This commendable endeavor commenced with an enthusiastic welcome from the Master of Ceremonies, Ms. Akila, and unfolded into a vibrant flash mob led by Ms. Rupali and her team. A thought-provoking skit followed, shedding light on the adverse consequences of improper waste disposal and littering on our campus, emphasizing the crucial need for waste segregation and responsible disposal in designated bins. The skit underscored the pivotal role of proper waste management in environmental preservation and prompted reflection on individual contributions to environmental degradation.

Guided by Prof. Fr. Francis Pinto, the entire program received invaluable support from Dr. Prema Jyothi, Assistant Professor of the School of Social Work. The event culminated with an insightful speech delivered by Mr. Bala and a heartfelt vote of thanks expressed by Ms. Elisiba, the student coordinator. Throughout, the program echoed the resonant theme of "Clean campus, green campus, dream campus," encapsulating the collective vision for an immaculate environment and an inspiring academic space.
